

CELEBRATE FISHBONE!

25 YEARS & STILL RED HOT!

Celebrating 25 groundbreaking years, FISHBONE has been trailblazing their way through the history of American Ska, Funk, Rock Fusion and (so-called) Black Rock since starting their professional career in Los Angeles' burgeoning, Alternative Rock music scene of the mid-1980s. Their sound has often been imitated, but never duplicated. They have toured worldwide with such bands as the Beastie Boys, Red Hot Chili Peppers, The Roots, Les Claypool / Primus, Fela Kuti, George Clinton, The Dead Kennedys, and many more. Angelo Moore's

ability to combine thought-provoking, humorous social commentary with FISHBONE's frenzied, up-tempo music and frantic, euphorically entertaining stage show has cultivated their undisputed reputation as one of the best live acts in music history.

Now in their 25th year of composing, creating, recording, releasing and performing original music together, mass critical appeal appears to be returning to the band, fueled by their critically acclaimed full-length feature documentary, *Everyday Sunshine: The Story of Fishbone*. Narrated by Laurence Fishburne, the documentary features celebrity testimonials from an A-list cast of rock icons (Flea, Gwen Stefani, Perry Farrell & many more), has been premiered in over 60 theaters nationwide and DVD release will be available starting February 21st, 2012 through all major retailers nationwide. To date, Fishbone continues to tour all over the world, still turning heads at some of the world's most noteworthy festivals. The band is currently campaigning to be inducted into the Rock n Roll Hall of Fame. For more information, visit www.fishbone.net.
